Dear valued customer,

The world, our markets and the behaviour of our consumer is everchanging. Therefore, more than ever, Carhartt is the brand hardworking men and women rely on if it comes down to durable and trustworthy gear.

For Spring 23, new Force[®] tops, rain jackets, graphics and women's lightweight tees will fill the (online) stores with excitement in both product and colour offer.

Our proven versatile products, can be worn for any occasion. While building, doing or relaxing, Carhartt serves and protects, on and off the job, 24/7.

Thank you for all you are doing and your continuing contribution to the Carhartt legacy.

Stay well, keep busy.

Albert Foppen

Vice President EMEA/PAC

FOOTWEAR

CARTER RUGGED FLEX®
WATERPROOF
S3 PULL ON
SAFETY BOOT

TO TAKE DOWN
ANY WORK DAY

Our footwear is built from the ground up: Carhartt durability, quality and craftsmanship translate directly to our line of work boots and shoes, built to keep you comfortable and safe during your work day.

S3

Carhartt safety shoes are of the protection class S3: offering stability, comfort, and lightweight flexibility to all craftsmen. In compliance with the requirements of the EU standard, EN ISO 20345:2012, the S3 shoe offers a safety toe that protects against falling objects and indentation resistance is at least 200 Joules. The S3 shoe also has antistatic propertise, increased resistance of water, a slip reistant sole and anti-perforation that protects sharp objects from injuring the wearer's foot.

S1P

Carhartt safety shoes are of the protection class S1P: offering stability, comfort, and lightweight flexibility to all craftsmen. In compliance with the requirements of the EU standard, EN ISO 20345:2012, the S1P shoe offers a safety toe that protects against falling objects and indentation resistance is at least 200 Joules. The S3 shoe also has antistatic propertise, a slip reistant sole and anti-perforation that protects sharp objects from injuring the wearer's foot.

FT

Identifies protection against impact and compression hazards with a fiberglass toe, taking up to 200 joules of force. The lightest toe cap with an ergonomic shape specially designed to adapt to any type of foot, this will ensure comfort and a high precision fit. The Fiberglass Toe meets EN ISO 20345:2012 standards.

ALU

Identifies protection against impact and compression hazards with an aluminum toe, taking up to 200 Jules of force. Toe cap with an ergonomic shape specially designed to adapt to any type of foot, this will ensure comfort and high precision fit. The Aluminium Toe meets EN ISO 20345: 2012 standards.

These shoes are designed to be completely waterproof and to keep your feet dry in most types of wet conditions. A waterproof and breathable membrane is used to keep you feet dry and warm while wicking moisture away from the foot and promoting air flow and circulation.

Rugged Flex® gear meets Carhartt's defined standards for stretch and recovery to give you extra range of motion so you can move and work easily in Rugged Flex shoes. This can be found in the construction of the sole and the composition of the materials used in the anti penetration textile plate and non metallic thermo plastic polymer shank. These elements provide protection and support whilst both being pliable enough to suit the wearers needs in the work place.

The scuff toe cap offers more durability to a key focal point on the shoe. It provides further protection from wear without adding extra weight.

Lightweight non-metal performance shank proveys extra stability.

These shoes are designed with lightest weight materials, to provide a lightweight fit to help keep you strong throughout your work day.

The anti-penetration plate is made of compressed textile to enable felxibility while protecting from sharp objects piercing through the plate and causing injury to the foot.

Vibram is the world leader in high performance soling systems. Combining cutting edge designs with advanced rubber compounds to deliver optimum performance. Our Vibram rubber outsoles engineered with a polyurethane midsole are built to withstand the pressures of a work environment, providing essential protection of anti-slip, heat resistance, durability against abrasion contact, including exposure to oil and ammonia.

3M Scotchlite, reflective material reflects light back to its source, making the wearer more visible and therefore safer.

CORDURA® fabrics offer excellent resistance to tears, scuffs, and abrasions, High performance CORDURA® fabrics are used where durability counts – durability that lasts.

The YKK Fastening Products Group is a trusted worldwide brand for quality produced fasteners, including zippers.

DIY REPAIR KITS

A little repair work can go a long way. That's why we won't let something like a broken zipper or a missing button be the reason your Carhartt retires early. Sometimes all you need to fix your gear is the right materials. That's why we built three custom Carhartt repair kits with the buttons, zipper sliders, and fabric patches you need to go ahead and get the job done yourself.

2 -PACK IRON-ON REPAIR PATCHES - #104152

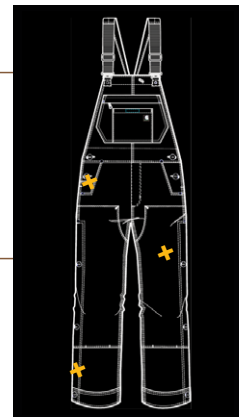

Iron on patch adhesive that can be cut to size • Contains 2- 12.7x12.7 cm patches. • Designed to fix small, wear and tear holes on Carhartt gear made of traditional Duck fabric • It can be used to repair the following styles: B01, 103339, 103340, 102276, 104393, 104694.

NO. 5 ZIPPER SLIDER REPAIR KIT - #105514

Contains 1 logo slider and 4 top stops • It can be used to repair the following jackets and sweats: 102788, 105322, 104694, 102524, 104053, K122, 104393, V01, 104277, 103837, 103828, 104393, 102248.

NO. 10 ZIPPER SLIDER REPAIR KIT - #105598

Contains 1 logo slider and 4 top stops • It can be used to repair the following: 104050.

BUTTON REPAIR KIT - #105515

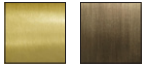

Can be used to replace buttons on jackets and pants and to add waistband buttons for suspenders • 8 buttons and tacks included.

ICON		MARKETING DESCRIPTION	FABRIC DESCRIPTION
	Rain Defender® Durable Water Repellent (DWR)	Amazingly durable and dependably water repellent, moisture beads up and rolls off. Rain Defender® Durable Water Repellent.	Water Repellent finish that provides protection in light rain.
	Quick Duck®	Carhartt Quick Duck® outerwear: repels the rain, resists the wind. Anything else up your sleeve, Mother Nature?	30% lighter blended cotton, water repellent, and ounce-for-ounce as tough as our legendary sandstone duck.
	Storm Defender®	Waterproof, breathable technology stops water from getting in but lets sweat out.	Membrane/laminate applied to the fabric to keep water from reaching the inside of the garment, but also allows sweat/heat to escape.
	Rugged Flex®	Gear made to move in, so whatever you're doing, it's easier to do. Rugged Flex® stretch technology for ease of movement.	Carhartt's rugged stretch designation given to materials that will meet the defined standards for stretch and recovery.
	Wind Fighter®	The wind can whistle, you won't care. You're better protected than a franchise quarterback in a pre-season game. Wind Fighter® technology tames the wind.	Finish or added membrane that keeps wind from going through the fabric and reaching your skin.
	Stain Breaker® Stain Release	Fight dirty with Carhartt Stain Breaker® stain release. These hardworking fibers help send job site stains straight down the drain. Stain Breaker® technology releases stains.	A finish that allows stains to wash out easily.
	Force®	Wicks sweat and dries fast. Force® technology stares down heat and keeps you cool.	Fabric must have Fast Dry® wicking technology and may be combined with the following properties: <ul style="list-style-type: none"> - Fights odors - Stain Breaker® stain release - Rugged Flex® stretch - Wrinkle release  FastDry®
	RIPSTOP®	Carhartt's cotton ripstop is built to stand up to tough days. The ripstop fabric is specially designed to resist rips and tears so it doesn't wear down quickly due to its better weave.	Carhartt Ripstop fabrics are woven fabrics, using a reinforcing technique that makes them more resistant to tearing and ripping.
 SUPER DUX <small>BORN FROM WORK. BUILT FOR PLAY.</small>		Each piece in the new SuperDux line features Carhartt's Rugged Flex®, Rain Defender® and Wind Fighter® technology – making it built to stretch and move with you, and adding an extra layer of protection against outdoor elements. The gear also features the look of traditional duck with either a lighter nylon fabric (35% weight reduction) with 3M™ Thinsulate™ for warmth without added weight or a unique, nylon stretch shell laminated with a dense Sherpa to keep warm while offering a softer touch.	
 FULL SWING		Full Swing® offers a patented design with stretch across the shoulders, added flexibility in the elbows, and arms that move freely without the jacket riding up. U.S. PAT. 10,143,249. PATS PEND.	Rugged Flex® technology engineered design to provide improved range of motion. Engineered fit to remove bulk and weight.
 3M Thinsulate <small>INSULATION</small>		3M™ Thinsulate™ Type G Insulation is a workhorse insulation – warm, durable, versatile, yet lightweight. These insulations help trap and hold body heat, while still allowing for moisture to escape. The lofty profile enables versatile garment design with extra warmth and durability.	3M™Thinsulate™ Featherless insulation in an innovative material to replace down. A loose-fill insulation designed by scientists that mimics down when dry and is warmer than down when wet. Featherless insulation in an ideal synthetic alternative to down in any garment (add in heat rating with colours).  WARMTH SCALE  GRAM WEIGHT Less than 60g 60g - 140g 141g +

SUPER DUX

BORN FROM WORK. BUILT FOR PLAY.

HIGHLY-FUNCTIONAL GEAR BUILT
FOR EVERY RUGGED CORNER ON
EARTH

KEEPS YOU DRY IN LIGHT RAIN
AND TAMES THE WIND

BUILT TO STRETCH AND FLEX
WITH YOU AS YOU MOVE

Each piece in the new SuperDux™ line features Carhartt's Rugged Flex®, Rain Defender® and Wind Fighter® technology – making it built to stretch and move with you, and adding an extra layer of protection against outdoor elements. The gear also features the look of traditional Duck with either a lighter nylon fabric [35% weight reduction] with 3M™ Thinsulate™ for warmth without added weight or a unique, nylon stretch shell laminated with a dense Sherpa to keep warm while offering a softer touch.

CORDURA®

Advanced Fabrics

CORDURA® Advanced Fabrics are both strong and versatile, protect against tears, scuffs, and abrasions. Great for combating the daily grind to surviving some of the world's toughest environments.

WHAT ARE CORDURA® NYLON FABRICS?

Durable CORDURA® NYLON fabrics keep you at work, protecting you from the wear-and-tear hazards of life on a job site, and Carhartt's gear equipped with CORDURA® NYLON fabric is built to last.

It is used in our Certified Footwear, and as reinforcement elements in kick pleats and utility bands of our Men's work pants. Our durable CORDURA® NYLON jackets, like the Rain Defender® Relaxed Fit Lightweight Insulated Jacket, come equipped with a CORDURA® NYLON fabric shell that is lighter than most jackets, yet is resistant to tears, cuts or other abrasions.

The variety of colors and looks in our CORDURA® NYLON collection, gives you a full arsenal of options when tackling each new challenge of your workday. Experience and innovation matters, and we've been perfecting our line of work gear since 1889. You've come to the right place at Carhartt for gear that will last as long as your career. Because at Carhartt, we're here to help you move like you mean it.

SHELL FABRIC

ALL OUR DUCKS, IN A ROW

Brown duck was the genius creation of Hamilton Carhartt. His brown duck bib overalls for railroad workers revolutionized clothing for the working class. These overalls were first recorded in a 1915 newspaper article that described the new “wonderful brown Carhartt’s.” This brown duck bib is still in the Carhartt stable and remains as popular as it was when originally introduced. Hamilton Carhartt’s brown duck serves as a reminder that great quality never goes out of fashion. Today, we’ve increased our duck line across the board for men’s, women’s and accessories and color, to the advanced technologies and finishes used to fortify the garment, there’s a hardworking duck fabric for every task.

WHAT IS DUCK FABRIC?

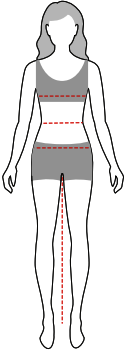

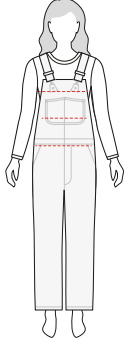

Since the introduction of our original brown duck in 1915, Carhartt has developed 8 different variations of our famously durable workwear fabric — currently in use in over 200 rugged Carhartt products. With distinctive properties ranging from fabric strength, weight, rigidity, and color, to the advanced technologies and finishes used to fortify the garment, there’s a hardworking duck fabric for every task. Learn more about our different duck types below.

LEARN MORE ABOUT OUR DIFFERENT DUCK TYPES BELOW.

<p>FIRM DUCK Our strongest cotton duck is the most durable canvas out there. Built with added toughness, firm duck is water-repellent, wind resistant, and rugged. If you like to break in your jackets and pants, firm duck is for you.</p>	A close-up photograph of Firm Duck fabric, showing a tight, uniform weave.
<p>DUCK Good 'ol duck is stiff, ring-spun cotton. If you like your Carhartt solid, classic and durable as the day is long, this is the duck for you.</p>	A close-up photograph of Duck fabric, showing a slightly looser weave than Firm Duck.
<p>WASHED DUCK If you like sandstone duck, you'll like our washed duck. This fabric feels exactly like it sounds — we took our durable, classic duck, and washed it for a broken-in look and feel. It breaks in faster than duck, and looks newer, longer. Find it in gear like our Full Swing®</p>	A close-up photograph of Washed Duck fabric, showing a soft, slightly irregular texture.
<p>SANDSTONE DUCK Sandstone duck is sanded and brushed for softness and comfort. The more you wear it, the more it breaks in—it's comfortable the first day you put it on and more comfortable and worn-in on the 50th.</p>	A close-up photograph of Sandstone Duck fabric, showing a soft, sanded texture.
<p>QUICK DUCK® Quick Duck® is a 9oz and polyester/cotton blend, therefore lighter than traditional sandstone duck but still durable. It's built with a durable water repellent finish, so water repellent, so water beads up and rolls off, and it doesn't require breaking in like sandstone—so your gear will always look fresh.</p>	A close-up photograph of Quick Duck fabric, showing a fine, uniform weave.
<p>RUGGED FLEX® DUCK Rugged Flex® Duck gives you the classic Carhartt look, with just the perfect amount of stretch. Made by combining our famous cotton Duck with Rugged Flex® durable stretch technology, the result is increased ease of movement everywhere it's needed, and our most comfortable heavyweight gear yet.</p>	A close-up photograph of Rugged Flex Duck fabric, showing a slightly irregular texture with some stretch.

CARHARTT WOMEN'S BODY MEASUREMENTS

HOW TO MEASURE	HEIGHT CHART
 <p>Bust: Measure the fullest part of your bust, keeping the measuring tape parallel to the floor</p> <p>Natural Waist: Bend side to side and find the natural bend in your body; this is your natural waist. Note: It may not be the smallest point.</p> <p>Hips: Measure the fullest part of your hips, approximately 8" below the natural waist.</p> <p>Inseam: Measure from your crotch down to the desired length on body. You may also measure pants that you currently own and like. Lay the garment flat and smooth out. To get the inseam length, measure on the front from the crotch point, along the seam, to the hem.</p> <p>For best results, measure over your undergarments.</p>	 <p>REGULAR 5'4" to 5'8"</p>
